OEL

MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : Antennas for the [] Program

25X1A

25X1A

The antenna patterns associated with the [] equipment are not as broad in azimuth as is desired. For the [] program, however, it is recommended that the existing antennas be used. Investigation of the extent of change involved in broadening the antenna patterns will be conducted concurrently.

25X1A

GEORGE C. MILLER
Assistant Director for ELINT
